A BIG OUTPOURING

Of the Democracy at the Opera House Last Saturday Evening—A Highly Successful Meeting.

Fred Ikeler Esq., Delivers an Eloquent Speech.

The Young Men's Democratic Club, an organization composed of the representative young voters of Bloomsburg held a highly successful meeting in the Opera House Saturday evening. The speakers were to be John G. Harman Esq., and Fred Ikeler Esq., but at a late hour in the day, Mr. Harman was called away, and the Club had not sufficient time to secure another to take his place.

The meeting was called to order and Clem R. Weiss chosen chairman. After making a few remarks in regard to the need of co-operation on the part of every democrat, he introduced Mr. Ikeler as the speaker of the evening. This gentleman's appearance on the platform was the signal of a tumultous demonstration, and as he stepped before the foot lights he was cheered to the echo. Mr. Ikeler is too well known to need any further comment here, suffice it to say that his speech was a splendid one, polished, logical, scholarly and gentlemanly, and held the close attention of the large audience. His arguments were lucid and at the same time beyond contridiction. Especially effective was his reference to the Bloomsburg Brass and Copper Company, at one time a prosperous industry of our town. But its prosperity was short lived, it fell a victim to the trust, its doors were closed, and the buildings are gradually going to decay. Republicans can advance no argument in rebuttal to this. The plant stands, with extinguished furnaces, and barred doors as a witness to the truthfulness of Mr. Ikeler's assertion. The speaker scored many other points, but a lack of space prevents further comment.

The Buckhorn and Bloomsburg Bands were in attendance, and the music enlivened the occasion and was greatly enjoyed. The meeting was a great success in every way and the young men are to be congratulated for the admirable arrangements and the successful result of their efforts.

The Ballots.

The ballots for next Tuesday's election are printed and delivered to the commissioners. They are 25 inches long, and 18 inches wide, and are printed on good book paper, better than is used in most counties of the state. Being so large, the paper is not quite as heavy as usual, as a heavy paper would make too much bulk and the ballot boxes wouldn't hold them. A tin straight edge is furnished each district, and the election officers can use this, or cut them with a knife. Complaint has sometimes been made that the ballots are not perforated enough, but if they were perforated so that they would tear off without a straight edge, they would fall off of their own weight. It has also been complained that the pencil point punches through the paper, but one can punch through a card board unless you have a solid surface underneath. With proper care there will be no cause for complaint.

Y. M. C. A. Evening Classes.

On Monday evening of each week, beginning promptly at 7:30, the following branches are being taught under the direction of Prof. Samuel Pursel: spelling, reading, arithmetic, and grammer.

On Thursday evenings book-keeping will be taught by Prof. Derr.

A number of young men have enrolled and are availing themselves of these privileges, but there is yet room for many more. Any desiring to join these classes are invited to call at the Y. M. C. A. office for partculars.

Services of United Evangelical Church.

Revival services every evening during the week at 7.30. Sunday school on Sunday at 9.15. Preaching at 10:30. Junior K. L. C. E. Sunday at 2.00. Senior K. L. C. E. Sunday at 6.30. Preaching Sunday at 7.30. A hearty invitation is extended to all these services. Strangers made welcome.

DRANK POISONED TEA.

An Attempt Made to Take Human Life Without Any Apparent Motive.

A diabolical attempt to take the life of Emanuel Hummel was made by an unknown party, or parties, Tuesday night, or early Wednesday morning. Mr. Hummel is employed as night watchman at the Magee Carpet Works. About half-past one o'clock he turned down the lights and started on his rounds to see that everything was all right. Returning, he found the lights turned on and burning brightly. It aroused his suspicion for a moment, but little thinking that anything was wrong, he sat down to eat a lunch. He took a few swallows of tea, but the application of the beverage to his tongue revealed a peculiar sweetish taste, and he threw the remainder away. He then started for his home, on North Iron street. Scarcely had he arrived until he was taken violently ill. The family physician, Dr. J. C. Rutter, was hastily summoned, and to his quick response Mr. Hummel probably owes his life. An emetic was administered, and the patient was soon out of danger.

It is evident that the purpose of the base act was to poison Mr. Hummel, but it was impossible to determine what kind of poison had been employed, as he had drained the can and there was none of the liquid left to analyze.

Rev. M. L. Smyser Dead.

On Saturday evening Rev. M. L. Smyser, presiding elder of the Altoona district of the Central Pennsylvania Methodist Conference left his home at Bellefonte to attend an Epworth League convention in Altoona.

In the evening he preached in the Eighth Avenue church. He went to bed shortly afterwards and Monday morning was found dead in bed. He was 60 years of age.

Rev. Smyser was appointed to the pastorate of the Bloomsburg Methodist Episcopal church in 1877, and served two years. In 1879 he was transferred by the conference to Berwick where he remained for two years at the end of which he was made presiding elder of the Danville District. He was an earnest worker for the cause of God, and was admired and loved by all who knew him. A wife, two daughters and one son survive.

Burglar May Be Identified.

Mysterious Man Killed at Cambra Believed to Have Been Named Douglass.

The mysterious burglar who was shot and killed at Cambra by John Hughes two weeks ago, while breaking into the post office has been partly identified.

A photograph was taken of him in his coffin and sent to Horace Wyant, of Dallas, who identified the man as having been at Dallas during the fair there the fore part of October, when, it is said, he gave the name of Douglass.

Free Lectures at the Tabernacle.

Rev. Xavier Sutton, C. P., will deliver a series of free lectures on the Catholic Church at the Tabernacle from Nov. 5th to Nov. 12th. Subjects: Monday, Nov. 5th, "What Catholics Do Not Believe;" Tuesday, "Purgatory;" Wednesday, "Can Man Forgive Sins?" Thursday, "Bible;" Friday, "The Lord's Supper;" Saturday, "Is There a Hell;" Sunday, "Why I'am a Catholic." The lectures begin at 7.45 each evening and will be addressed to non-Catholics. All are welcome.

There are men in town who stand on the corner all day and complain about not being able to obtain employment, and yet, when given an opportunity to make an honest dollar, refuse to work. A certain resident, on Monday, wanted some carpet beat. He offered the job to three different fellows, who were holding up the corner, but it was rejected by all of them. There are, no doubt, many deserving ones in our midst, but there are just as many of the other class, as the above proves.

Arrangements are being made by Prof. Joseph H. Dennis to throw the election returns upon a large screen in front of the Court House Tuesday night. Photographs of the leading men of both parties as well as pictures of our prominent local politicians will be shown. Wilbur Fisher and Michael Tracy have secured a stereopticon for that night and will also give out the returns as fast as they come in. The two lanterns will be operated so as not to conflict.

DEMOCRACY

Was in Evidence at the Court House Tuesday Evening—The Spacious Court Room Packed to the Doors.

The Issues Discussed by Hon. James Stranahan.

Though sufficiently spacious for all ordinary purposes, and plenty large enough for the purpose for which it was intended, the Court room was far inadequate to accommodate, with even standing room, the crowd that sought admittance Tuesday evening to hear Hon. James Stranahan, of Harrisburg, discuss the issues confronting the people in the present campaign. It was truly a Democratic night. The street was crowded with them. They came from various sections of the county.

The Buckhorn Band arrived about seven o'clock, followed by a goodly procession of vehicles. A little later the Bloomsburg Band made its appearance on the street, and as the two organizations lined up in front of the Court House the march for admittance began. The supply of seats was soon exhausted and the isles, too, were crowded to the doors, while many were unable to get to the top of the steps.

The meeting was called to order by County Chairman C. A. Small. B. F. Zarr Esq., was elected chairman, and J. K. Bittenbender and Harry Fine secretaries, and the following gentlemen named as vice presidents:

Hon. James T. Fox, Lincoln H. Boody, A. B. Black, C. W. Snyder, John Knies, J. S. Williams, Andrew Evans, C. T. Vandershce, John Tracy, James MacEwan, John G. Freeze Esq. George W. Sterner, Paul Harman, Charles Savage, Wm. Hartzel, Dr. J. C. Rutter, Harry Derr, W. C. Johnson Esq., W. A. Evert Esq., C. M. Terwilliger, I. J. Hess, Wm. Yost, Robt. Buckingham, Freeze Quich, T. T. Freeze, Peter Jones, Harvey Gigger, Warner Mifflin, John Welliver, J. G. Harman Esq., J. B. Robison, W. H. Fisher, Wm. Krickbaum, M. I. Hennessy, Dr. T. C. Harter, C. A. Kleim, W. H. Henrie, W. W. Black, J. C. Rutter Jr. and E. F. McCabe.

Before introducing the speaker Mr. Zarr spoke for a few minutes. He touched upon the most important issues of the campaign. His remarks were well received and he was loudly applauded.

Hon. James Stranahan of Harrisburg, was then introduced. He was cool, collected, and talked easily and freely. He pointed out the many flaws in the Republican system of government, and with convincing arguments he showed the incomptency and incapacity of that party. Not an issue was left untouched. The speaker gave considerable time to the plea of prosperity and pointed to the great coal strike, as evidence that the Republicans are endeavoring to fool the voters. If prosperity really exists to such an extent as claimed by Republican orators it is certainly thinly spread, as nowhere can it be seen. When he concluded he was loudly cheered.

Y. M. C. A. Anniversary.

The ninth anniversary of the Bloomsburg Y. M. C. A. will be held next Sunday evening, in M. E. Church, at 7 o'clock.

The address of the evening will be delivered by Thos. H. Atherton, Esq., of Wilkes-Barre. Mr. Atherton is one of Wilkes-Barre's prominent attorneys, and is known all over the State as a staunch supporter of the Y. M. C. A. work. His addresses at conventions and other Y. M. C. A. gatherings are always listened to with much interest and profit. We are fortunate in securing him for our anniversary service, and it is hoped that he will be heard by a large audience. The practical business men of Bloomsburg will certainly be interested in hearing what another busy business man has to say about this phase of Christian work.

The evening preaching services in nearly all the churches will be set aside, giving an opportunity for all to join in the union service who may desire. Everybody will be most cordially welcomed.

The Democratic majority in this county will be at least 2500.

CHARLES B. JACKSON.

After an illness of ten days, Charles B. Jackson, Esq., died at his home in Berwick on Thursday, October 25th, at about one o'clock. He had been suffering from diabetes for several years, but his friends were not looking for a fatal termination so soon. He was in attendance at Court at the September term, and was in Bloomsburg during the Fair, and appeared to be as well as usual. For nearly a week before his death he was unconscious most of the time, and the end came peacefully and painlessly.

Mr. Jackson was the son of the late Morrison E. Jackson, who, in his day, was one of the ablest members of the Bar of this county. He was born in Berwick June 7, 1846, and was married in Ohio on February 14, 1867, to Miss Emma G. Campbell, who, with one son, Alexander C. Jackson, a member of the Bar of Luzerne county, survives him. His mother, Mrs. Anna S. Jackson, and a sister, Mrs. Anna G. Oswald, reside in Berwick. He was educated in the Berwick schools, and Dickinson Seminary, at Williamsport. At the age of eighteen he engaged in the mercantile business at Berwick, and followed it until his admission as a lawyer, in 1875, when he became a partner of his father, and so continued until the death of the latter, in 1879. He had a large practice in this and Luzerne counties, and enjoyed the reputation of being a careful and honest lawyer. The funeral took place in Berwick on Saturday at four o'clock, and was very largely attended. Delegations of lawyers were present from Bloomsburg and Wilkes-Barre.

BAR MEETING.

A meeting of the members of the Bar was held in the Court room on Saturday, October 27th, at 1:30 p. m. Col. J. G. Freeze called the meeting to order and stated the object to be to take appropriate action on the death of Charles B. Jackson, Esq. Mr. Freeze said:

GENTLEMEN OF THE BAR:

Two weeks ago we gathered in silent sadness about the grave of Chas. G. Barkley, and to day we are about to assemble for the same solemn duty, at the last resting place of Charles B. Jackson. To that bourne whence no traveler returns, they have taken their departure, and if we could see the meeting of the spirits who have passed beyond the sun, we can well imagine the cordial greeting of friends so lately here in full life, and active in the business of the world.

Mr. Jackson read law with his father, Morrison E. Jackson, and was admitted to practice February 2, 1875, on motion of Col. Freeze, of the examining committee. He was in full and active practice almost to the day of his death. I may truthfully say of him what Judge Elwell said of his father, on the occasion of his death, in 1879: "He died with the professional harness on." No man can say of him that he was other than an honorable opponent. His course was plain, transparent and clear. He required no writing to back what he said. His word was his bond.

A committee on resolutions, having been previously appointed, their report was called for, and presented by

TERRIBLE DISASTER.

Flames and Explosives Destroy Life and Property.

DOWN TOWN NEW YORK SHAKEN.

Fire in Tarrant's Wholesale Drug Store Reaches Chemicals, Causing Terrific Explosion—Unknown Number Killed.

NEW YORK, Oct. 30.—Not since the disaster of the falling building in Park place has there been such a horror of fire, explosion, falling walls and loss of life as that which occurred yesterday along Warren street between Greenwich and Washington streets, with the new seven story brick building of Tarrant & Co., druggist and chemists, as the starting point of destruction and the fearsome center of interest. In less than 15 minutes, from 12 o'clock to the quarter after, Warren street between Washington and Greenwich was a mass of high piled debris. The blocks bounded to the north and south by Chambers and Murray streets were ablaze. All the north side of Warren street was down, swept clean by the rear wall of the Tarrant building as it was blown out by a terrific explosion. Half the buildings on the south side of Warren street were down, crushed in the same way. The big coffee roasting plant of the Eppen, Smith & Wiemann company in the middle of the block was afire from top to bottom and its front caved in. What grewsome story of death was hidden under the heaps of stone, brick, beams and heavy machinery could only be guessed at.

Estimates put the loss of life at from 50 to 100 and more. The injured, who came from every store and office along the street, struck by flying stones and rafters and shattered glass, probably counted over 100. Ambulances by the dozen stood in nearby streets, and the surgeons had their hands full of work.

How the fire started none could be found who knew or guessed. It broke out in the Tarrant building at 12 o'clock, when smoke was seen curling thinly out of a third floor window on the Warren street side. The place was stocked with chemicals, and these caused the frightful feature of the disaster, the explosions following fast on the heels of the alarm of fire. The whole lower part of the city felt the shock, and streets for blocks leading to the scene were paved with glass from windows and doors, whose empty frames told of the force of the quakes.

It was not until 3 o'clock that the firemen, under Chief Croker's personal direction, had the flames under control. At one time they threatened two whole blocks.

At the time the explosion took place Broadway was thronged. The full force of the explosion appeared to sweep up Warren street and Park place. Simultaneously with the shaking of the earth came three distinct blasts of hot air and the smell of drugs. The hot air blasts caused people to throw their hands before their eyes. At the corner of Broadway and Park place an elderly lady was thrown heavily to the sidewalk.

When lifted to her feet, she began to cry hysterically. Scores of women rushed to the east side of Broadway. Men with blanched faces turned into Broadway from Warren street, declaring that hundreds of people had been killed and that the danger was not yet over. To add to the excitement horses attached to heavy trucks reared when they felt the earth tremble beneath them. The panic was over in a few minutes, and then the people turned to watch the debris which had been carried up into the air by the explosion.

A conservative estimate of the loss places it at $1,300,000. Forty buildings were destroyed.

Adjutant General Corbin's Report.

WASHINGTON, Oct. 31.—The annual report of Adjutant General Corbin to the secretary of war for the year ended June 30, 1900, is a complete statistical record of the army of the United States. It shows that the regular army consists of 2,525 officers and 63,861 enlisted men and the volunteer army of 1,548 officers and 31,079 enlisted men, a grand total of 98,790, not including the hospital corps, which is not counted as a part of the effective strength of the army.

Professor Max-Muller Dead.

LONDON, Oct. 29.—The Right Hon. Friedrich Max-Muller, corpus professor of comparative philology at Oxford university, died yesterday afternoon. His disease was an affection of the liver. Until ten days ago he was able to continue writing his autobiography, dictating to his son. He was perfectly conscious until a short time before he passed away. Frequently during his illness dispatches of inquiry were received from Emperor William.

Hays to Be President.

NEW YORK, Oct. 27.—Charles H. Tweed of the Southern Pacific railroad confirms the report that Charles M. Hays has been selected for the presidency of the company, made vacant by the death of C. P. Huntington. He said that Mr. Hays would assume the new office about Jan. 1 and that he would have headquarters in San Francisco. Mr. Tweed added that the other officers of the Southern Pacific would probably retain their present positions.

Guide Shot For a Deer.

UTICA, N. Y., Oct. 30.—Marcus Earle, a well known Adirondack guide, aged 45 years, who had a camp in the vicinity of Moose river, was shot and killed about 1 p. m. yesterday through being mistaken for a deer. One report states that the shot was fired by Dr. Palmer of this city, but information from another source gives the name as Parmelee. Earle leaves a widow and four children.

Troops Welcomed to London.

LONDON, Oct. 30.—The City Imperial volunteers, who arrived at Southampton from South Africa Saturday on the British transport Aurania of the Cunard line, reached here by train, marched through London and along streets packed by thousands and received a tumultuous greeting. Such a demonstration was probably never before evoked for such a small body of volunteers.

Lived 82 Years on the Same Farm.

MIDDLETOWN, N. Y., Oct. 31.—Miss Leoretta Gregory, who died near this city on a farm where she was born 82 years ago, had never resided elsewhere and 50 years ago determined she would spend her entire life where she was born.

FIGHTING FILIPINOS.

Several Sharp Encounters, With Varying Results.

MANILA, Oct. 29.—While scouting near Looc a detachment of the Twentieth and Twenty-eighth regiments under Captain Beigler was attacked by 400 insurgents armed with rifles under the command of a white man whose nationality is not known to the Americans. The insurgents for the most part were intrenched.

After a heroic fight Captain Beigler drove off the enemy, killing more than 75. The fight lasted for two hours. Captain Beigler and three privates were slightly wounded, and two of the Americans were killed.

An engagement took place Oct. 24 between detachments of the Third cavalry and the Thirty-third volunteer infantry, numbering 60, and a force of insurgents including 400 riflemen and 1,000 bolomen. The fighting was desperate. Finally, under pressure of overwhelming numbers, the Americans were compelled to retire on Narvican. Lieutenant George L. Febigor and four privates were killed, nine were wounded and four are missing. Twenty-nine horses are missing. A number of teamsters were captured by the insurgents, but were subsequently released. The enemy's loss is estimated at 150.

A civilian launch towing a barge loaded with merchandise near Arayat was attacked by a force of 150 insurgents under David Fagin, a deserter from the Twenty-fourth infantry. The American troops, on hearing firing, turned out in force before the boat could be looted and recaptured it.

Fagin, who holds the rank of general among the insurgents, has sworn special enmity toward his former company. Of the 20 men he captured a month ago seven have returned. One was killed in a fight, his body being horribly mutilated. Fagin sends messages to his former comrades threatening them with violence if they become his prisoners. It was Fagin's men who captured Lieutenant Frederick W. Alstaetter, who is still a prisoner.

Reports from General Young's district show a daily increase of insurgents there owing to the fact that recruits are going thither from the towns.

While a detail of the Thirty-third volunteer infantry was returning from Bangued on rafts it was fired upon by insurgents, Sergeant Berdstaller being killed and two privates wounded.

SHARP FIGHTS WITH BOERS.

They Have an Army of 15,000 Men and Are Active.

LONDON, Oct. 29.—According to a dispatch from Cape Town to The Daily Mail a force of Boers attacked and surrounded a patrol of Cape police with a convoy near Hoopstad, Orange River Colony, last Wednesday, and a sharp fight ensued.

"The police," says the correspondent, "were compelled to abandon two Maxims. Ultimately re-enforced by the yeomanry, they succeeded in getting away with the convoy, but they lost 7 killed, 11 wounded and 15 captured. The colonials were outnumbered ten to one, and the engagement lasted for two hours.

"The Boers have 15,000 men in the field, nearly half of whom are in Orange River Colony. These are divided into commandoes of some 300 each, but are capable of combination for large operations."

The war office has received the following dispatch from Lord Roberts:

"Barton's losses Thursday and additional casualties were a captain and 12 men killed and 3 officers and 25 men wounded. The Boers had 24 killed and 19 wounded. Three Boers who held up their hands in token of surrender and then fired on our men were captured and tried by court martial. I have confirmed the death sentence imposed on them.

"Methuen has dispersed the Boers near Zeerust. They had six casualties, and we took 28 prisoners. Our casualties were six wounded.

ADMITS PERJURY.

Witness Campbell Testified Against Caleb Powers.

LOUISVILLE, Ky., Oct. 31.—The Post prints an affidavit of Finley B. Anderson, a telegraph operator, who testified against Caleb Powers, who was convicted of complicity in the murder of Governor Goebel, in which Anderson denies certain important statements that he made on the witness stand in the Powers trial. Anderson tells of meeting Attorney Campbell in Ciniciunati and continues in his affidavit:

"Colonel Campbell then told me that Joe Owens had told him that I had said that Caleb Powers at the hotel in Barboursville prior to the 25th of January had used these words, speaking of William Goebel, 'If we cannot get him killed and it is necessary I will kill him myself.' I said to Mr. Campbell that I had never told any one any such thing and that Powers had not made such a statement to me nor any statement resembling it in any way. Campbell and Owens insisted I had made such a statement, and I afterward, upon Campbell's suggestion, sat down and wrote out a statement in which I included the foregoing statement of Powers, which was untrue in every particular, and upon the trial of Caleb Powers I swore to it as a fact, when in truth it was not a fact.

WAR ON FOREIGNERS

China's Crafty Empress Inciting Armed Bands.

TROUBLE FEARED IN YANG-TSE REGION

Kwang-tung Rebellion Subsiding—Li Hung Chang Accused of Double Dealing—Rumors of a Franco-Belgian Alliance.

LONDON, Oct. 31.—"Most serious trouble," says the Shanghai correspondent of The Daily Express, "is brewing in the Yang-tse region, whither the empress dowager has sent emissaries to raise powerful armed bodies to exterminate converts and expel foreigners. She has appointed Yu Chuan, a notoriously anti-foreign general, to be military governor of the Yang-tse district."

In the province of Kwang-tung, according to the Hongkong correspondent of The Daily Mail, the rebellion is subsiding, owing to the scarcity of arms and ammunition.

The Shanghai correspondent of The Times, wiring yesterday, says:

"Li Hung Chang has wired to Chang Chih Tung, the Wu-chang viceroy, that the peace negotiations are satisfactory, but to other leading officials he has telegraphed exactly the reverse, bidding them prepare for eventualities."

"I learn," says the Brussels correspondent of The Times, "that King Leopold's visit to Paris has resulted in a Franco-Belgian convention for the protection of the common interests of France and Belgium in China."

FLIGHT OF THE COURT.

Panic Stricken Journey From Peking Occupied Twenty-four Days.

PEKING, Oct. 30.—Prince Su, who accompanied the Chinese court in the flight to Tai-yuen-fu and afterward returned here, disheartened by the anarchy existing among those composing the immediate advisers of the throne, gave in the course of an interview today an interesting account of his journey.

"On the first day," said Prince Su, "the court traveled in carts 20 miles north; escorted by 3,000 soldiers, who pillaged, murdered and committed other outrages along the entire route. The flight was continued at the rate of 20 miles a day to Hsuan-hua-fu in the most panic stricken manner. So little authority was exerted that the soldiers even stole the meals prepared for the emperor and the empress dowager. The execution of several for murder and pillage eventually brought them under control.

"The court remained three days at Hsuan-hua-fu, some advisers counseling a further stay. They were, however, overruled owing to the fear of foreign pursuit, and the flight was resumed to Tai-yuen-fu, with 10,000 additional troops under General Tung Fu Hsiang, who added to the discord.

"The empress dowager did little else but weep and upbraid her advisers. The emperor reviled everybody. The journey occupied 26 days, the longest route being taken owing to fear of pursuit.

"On arriving at Tai-yuen-fu great difficulty was experienced in forming any semblance of government. Many edicts were ignored, and affairs reached a state of absolute chaos. The emperor would have preferred to trust himself to the allies, but he was compelled to join in the flight."

Prince Su does not believe that the court is going to Sian-fu. He thinks the plan is to return by a circuitous route through southern Shansi and northern Honan.

Mr. Bryan Leaves New York.

DUNKIRK, N. Y., Oct. 31.—W. J. Bryan concluded the final day of his New York campaign tour in this city last night. He began the day at the town of Addison and spoke at the following other places: Hornellsville, Almond, Alfred, Andover, Wellsville, Belmont, Friendship, Cuba, Hinsdale, Olean, Salamanca, Randolph, Jamestown and Dunkirk. All these towns are in the southwestern part of the state, and all have been strongly Republican in politics. The meetings of the day were generally well attended and some of them quite enthusiastic. Mr. Bryan left late last night on the Lake Shore railroad for Ohio, expecting to begin a one day tour of that state with a speech at Toledo. All told, he had made about 110 speeches in this state.

Mount St. Elias Damaged.

PORT TOWNSHEND, Wash., Oct. 29.—A report has reached here from Yakutat that Mount St. Elias was badly shaken by the recent earthquake that did so much damage at Kodiak. Indian trappers and hunters who were in the vicinity of the mountain have returned to Yakutat and say that the mountain was badly torn up. The shock was so severe that a mass of ice acres in extent broke loose near the top of the mountain and came crashing down the sides, carrying everything before it. The Indians state that from where the avalanche started clear to the base of the mountain it made a track about half a mile wide, where no snow or ice remained.

Alvord Arraigned.

NEW YORK, Oct. 31.—Cornelius L. Alvord, who robbed the First National bank of $690,000, was arraigned in the Tombs police court twice yesterday. There is a question as to which has jurisdiction in this case, the county or the federal courts. When the embezzler was arraigned in the morning, it was decided to adjourn the case until afternoon. In the afternoon a further adjournment was taken until Monday, when it will be decided who has jurisdiction in the case. In the meanwhile the embezzler will be held at police headquarters.

Explosion on Submarine Boat.

ANNAPOLIS, Oct. 31.—An explosion of gas on the submarine boat Holland at the Naval academy caused an alarm of fire at the ships. The fire corps responded, but there was no need of it. The crew did not leave the hold of the vessel. It is supposed that the gas was occasioned by over feeding the tube that supplies the furnace with gasoline which runs the engine. It is reported that little or no damage was done the vessel or machinery.

New Gas From Petroleum.

SALT LAKE CITY, Oct. 30.—It is stated here that a savant has discovered a new gas obtained from petroleum which burns with a brighter light than calcium or an electric arc. With a pint of kerosene the scientist produces a 700 candle power light. He can also generate power enough to run a four horsepower engine or automobile.

THANKSGIVING PROCLAMATION

President McKinley Names Thursday, Nov. 29.

WASHINGTON, Oct. 30.—The state department has issued the following:

By the President of the United States of America—A Proclamation.

It has pleased Almighty God to bring our nation in safety and honor through another year. The works of religion and charity have everywhere been manifest. Our country through all its extent has been blessed with abundant harvests. Labor and the great industries of the people have prospered beyond all precedent. Our commerce has spread over the world. Our power and influence in the cause of freedom and enlightenment have extended over distant seas and lands. The lives of our official representatives and many of our people in China have been marvelously preserved. We have been generally exempt from pestilence and other great calamities, and even the tragic visitation which overwhelmed the city of Galveston made evident the sentiments of sympathy and Christian charity by virtue of which we are one united people.

Now, therefore, I, William McKinley, president of the United States, do hereby appoint and set apart Thursday, the 29th of November next, to be observed by all the people of the United States at home or abroad as a day of thanksgiving and praise to him who holds the nations in the hollow of his hand. I recommend that they gather in their several places of worship and devoutly give him thanks for the prosperity wherewith he has endowed us, for seed time and harvest, for the valor, devotion and humanity of our armies and navies and for all his benefits to us as individuals and as a nation, and that they humbly pray for the continuance for his divine favor, for concord and amity with other nations and for righteousness and peace in all our ways.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington this 29th day of October, in the year of our Lord one thousand nine hundred and of the independence of the United States the one hundred and twenty-fifth. WILLIAM M'KINLEY.

COAL MINE EXPLOSION.

Three Killed and Six Seriously Injured at Edwardsville, Pa.

WILKESBARRE, Pa., Oct. 31.—A heavy explosion of gas occurred in No. 3 slope of No. 1 shaft of the Kingston Coal company at Edwardsville at 3 o'clock yesterday afternoon, in which three men lost their lives and six others were badly burned.

Five of the six injured are in a precarious condition, and it is doubtful if they can survive. When the men were brought to the surface by the rescuers, the skin hung in shreds from their bodies.

The work of rescue was dangerous, as "after damp" had accumulated. The first rescuing party that went down the mine were driven back, and two men in the party had to be carried out. A number of physicians were on hand, and as fast as the injured were brought to the surface their wounds were dressed and they were sent to the hospital or their homes.

The force of the explosion was so great that it blew down a great section of the roof.

A CARLIST UPRISING.

Bands of Armed Revolutionists Appear In Spain.

MADRID, Oct. 31.—Several bands of Carlists have appeared in the neighborhood of Barcelona. Three priests have been arrested in Barcelona in connection with the Carlist activity. Their quarters were searched and important documents were found. The Carlist movement was timed to commence a fortnight hence, but it broke out prematurely.

A band of 30 Carlists are reported to be near Berga, a town 51 miles north-northwest of Barcelona. Gendarmes searched the country house of a brother-in-law of the Duke of Solferino and seized several rifles.

The troops have received orders to hold themselves in readiness to set out for Catalonia at a moment's notice.

WE HAVE GROWN.

Total Population of the United States Is 76,295,220.

WASHINGTON, Oct. 31.—The total population of the United States for 1900, as announced by the census bureau, is 76,295,220, of which 74,627,907 are contained in the 45 states, representing approximately the population to be used for apportionment purposes. There is a total of 134,158 Indians not taxed.

The total population in 1890, with which the aggregate population of the present census should be compared, was 63,069,756.

Taking the 1890 population as a basis, there has been a gain of 13,225,464 during the past ten years, representing an increase of nearly 21 per cent.

Roosevelt In Western New York.

ROCHESTER, Oct. 31.—The Roosevelt train arrived here last night over an hour late, after a most unpleasant ride in a drizzling rain. Despite the unpleasant weather and the arrival of the train after 7 o'clock, the party found great crowds both at the depot and the two halls, and a splendid greeting was accorded the vice presidential candidate. There was an immense parade of clubs and business men's associations, and both auditoriums where Governor Roosevelt spoke were filled to overflowing. In addition to a remarkably enthusiastic gathering at Corning, the home of the club that was assaulted at Elmira Monday night, the only incident of the day occurred at Geneva, where there was an attempt made to prevent the governor from speaking.

Chicken Thief Shot.

POUGHKEEPSIE, N. Y., Oct. 31.—A gun trap set by William Brown of Wappinger Falls to protect his hennery from the raids of thieves was sprung on a human victim. John Mitchell of Wappinger Falls was in the hennery when the gun was discharged. He was shot in the back. After running about 50 feet he dropped to the ground and died. Mitchell was considered a respectable man, and his death and the circumstances leading up to it caused much comment. He had ten fowls in his possession, which he had stolen.

Floods In Wisconsin.

LACROSSE, Wis., Oct. 29.—In the past 24 hours seven and a quarter inches of rain fell in this city. The storm was most severe in this city, although it was generally felt within a radius of 50 miles. The Milwaukee road suffered much damage to its tracks, and no trains have arrived from the east for 24 hours.

Largest Gold Fund In the World.

WASHINGTON, Oct. 27.—The gold in the treasury yesterday amounted to $451,477,404, the highest point ever reached since the foundation of the government. This is said to be the largest gold fund in the world.

Thirteen Killed at a Wedding.

CONSTANTINOPLE, Oct. 26.—During a wedding ceremony last Sunday at Argyrokastro, in Epirus, the floor collapsed, with the result that 13 persons were killed and 40 others injured.

Putting food into a diseased stomach is like putting money into a pocket with holes. The money is lost. All its value goes for nothing. When the stomach is diseased, with the allied organs of digestion and nutrition, the food which is put into it is largely lost. The nutriment is not extracted from it. The body is weak and the blood impoverished.

The pocket can be mended. The stomach can be cured. That sterling medicine for the stomach and blood, Dr. Pierce's Golden Medical Discovery, acts with peculiar promptness and power on the organs of digestion and nutrition. It is a positive cure for almost all disorders of these organs, and cures also such diseases of the heart, blood, liver and organs, as have their cause in a weak or diseased condition of the stomach.

When lots of amateur sportsmen go off hunting they don't know the difference between a guise and guys.

DR. AGNEW'S CATARRHAL POWDER.—Rev. W. H. Main, pastor of the Baptist Emanuel Church, Buffalo, gives strong testimony for and is a firm believer in Dr. Agnew's Catarrhal Powder. He has tried many kinds of remedies without avail. After using Dr. Agnew's Catarrhal Powder I was benefited at once," are his words. It is a wonderful remedy. 50 cents. 33

KEEPS HIS PROMISE.

The Peculiar Case of Jonathan Reed, of Brooklyn, N. Y.

Told His Wife on Her Deathbed She Should Never Be Buried Out of His Sight and Now Lives in Her Tomb.

Among the features of Evergreens cemetery, Brooklyn, there is none that has caused more comment than the Jonathan Reed tomb. It contains the body of Mary E. Reed, who died in March, 1893, and is also the home of Jonathan Reed, who was her husband. They had been married 35 years when Mrs. Reed died. On her deathbed Reed promised his wife that she should never be buried out of his sight, but that he would have her body where he could see it. This promise he has carried out. The metallic coffin which contains the body has been so placed that he can see the face at will.

The handsome tomb was built soon after the death of Mrs. Reed, and was arranged to accommodate only two coffins. The one containing the body stands at the right as one enters the tomb, and on the left is an empty coffin of the same pattern resting on marble slabs. The interior of the tomb is arranged with a view to making it "cosey and homelike." The walls are decorated with the handiwork of the dead woman, pictures, bric-a-brac, etc. The floor is covered with rugs, and the exterior is tastefully decorated with growing plants in costly vases. In speaking of the man who reared the tomb and who occupies it most of the time, a man who knows him said to a New York Times reporter:

"There is considerable misapprehension regarding the motives that induced him to take up his present residence. The casual observer would suppose that he is possessed of a peculiar state of mind bordering on insanity, though one has only to engage in conversation with him for a few moments, when the fact of his sanity will be established in the mind of the visitor.

JONATHAN REED.
(At the Door of His Wife's Tomb in a Brooklyn Cemetery.)

He believes religious sentiment to be the result of geographical chance in the matter of birth, and that the crank is the man who breaks loose from the ironbound dogmas of his brothers, and had it not been for the cranks the human race would have remained aborigines. He does not deny his unbelief in a future state, but says: 'If there is a life beyond the grave it will be all right, but I shall make the best of this life, and be with my wife while I can.' He thinks the only difference between him and his wife is that the spark has simply gone out of her body, and that she is only sleeping or in a torpid condition. He does not think that God calls anyone from this life, but that death is simply an act of nature, and that he cannot 'accuse God of being a murderer.'

"Mr. Reed possesses a sense of humor that will save a man from becoming despondent. He laughs like a man who lives amid scenes of mirth, instead of one who spends most of his time in and about a tomb. His memory is as extraordinary as his life. He takes pleasure in relating the experiences of his past life, the humorous as well as the sad side of it, and his manner of expression makes it the more interesting. He lives as he does because he enjoys it, and, possessing his theories of life, he could enjoy nothing else. To be separated from the one whom he loved would make him most miserable and wretched."

A picture of his wife hangs on the door of the tomb, and under this the following inscription has been placed:

"Let those who seek not knowledge pass by this tomb, and those who fail to learn the secret of life in death depart.—Reed."

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

COUNT VON BLUMENTHAL.

Famous German Strategist Reported Seriously Ill at His Residence in Berlin.

Count Leonard von Blumenthal, the eminent German soldier, last of the generals who were conspicuous in the Franco-Prussian war, and one of the most distinguished strategists of the German army, is reported seriously ill in Berlin.

Count von Blumenthal was given his title of "graf" in 1883 and was made field marshal in 1888. His missions to England for the German government were many and important. In 1850 he was dispatched to Great Britain with special military propositions and was rewarded with the order of the Red Eagle. In 1871 he represented the emperor at the military maneuvers at Chobham, and was enlisted with other affairs of gravity in connection with the war department.

COUNT VON BLUMENTHAL.
(Senior Field Marshal General of the German Army.)

On July 30 last Count von Blumenthal was 90 years old. He was a soldier from his boyhood. In 1827, when but 17, he was commissioned a second lieutenant in what is now the Fusilier guards. In 1846 he had risen to be premier lieutenant in the topographical division of the general staff. His first fighting was done in the streets of Berlin during the disturbances of 1849. He took part in the Schleswig-Holstein campaign, fought in the skirmishes at Auenbull, in the battle of Colding, and in the battle of Fredericia.

Having meanwhile risen to the rank of colonel, Von Blumenthal, on December 15, 1863, was appointed chief of general staff of the combined army against Denmark. This was the first opportunity he had been given of showing his fine abilities as a soldier. For the brilliant manner in which he stormed the trenches at Dueppel he was promoted to major general, and after the peace he was made chief of the general staff of the second army, receiving the oak leaf of the Order of Merit and the star of the Order of the House of Hohenzollern. After the outbreak of the war with France Gen. von Blumenthal was appointed chief of the general staff under the supreme command of the crown prince. When the latter was presented by the emperor with the Iron Cross he declared that Gen. von Blumenthal was as fully deserving of the honor as was he. The great strategist has been living in retirement for many years.

UNIQUE POST OFFICE.

Located on Boundary Line Between Vermont and Quebec and Used by Both Countries.

On the boundary line between Vermont and Quebec province, in Canada, is an old building which is now used as the post office for both countries. It is an old stone building, built about 75 years ago, and is located at Beebe Plain, a town that is United States on one side of the street and Canada on the other. The post office is an exhibition of the good will of the people of the section. The father is the postmaster for Quebec and the daughter postmistress for Vermont. The post in front of the building is the boundary line. It was moved at one time by one of the citizens to get a road into his place that would be in Canada and cost the governments a great outlay to establish the exact line again. The cellar under the building, "which was originally a general store," connected the two countries. Whisky was known to be put down in one country and come out in the other. The offices were put in the same building to accommodate the farmers, who did not wish to get out of their wagons at two points.

The Czar's Regular Suite.

The suite of the czar of Russia consists of 173 persons, of whom 15 are members of the imperial family, 17 are princes who are not of imperial birth, 17 are counts, nine are barons and the remaining 15 are noblemen of lower rank. Only 128 are Russians, the rest being Germans, Finns, Poles, Circassians, Greeks and Roumanians.

THE TATTOOED CRUCIFIX.

How Lieut. Commander Gillmore Was Saved from Execution in the Philippines.

For the first time since we had been on the march, says Lieutenant Commander Gillmore in McClure's, the Filipino lieutenant separated his camp from ours. He also doubled his guard, stationing his soldiers in the rocks which surrounded us. Thinking all this somewhat peculiar, I sent one of the men to ask if he placed the guards for our protection.

"No," was his laconic answer. Soon afterward he came himself to our camp, and through an interpreter calmly informed me that he had orders, presumably from Gen. Tino, to execute us in the mountains.

I have always believed that the lieutenant's refusal to obey orders and execute us was due to the effect produced in his mind by an incident which had occurred a night or two earlier. At one of our stops he had shown me a crucifix, which he wore hung by a ribbon around his neck, and said to me: "The 'Americanos' are not Christians."

"Oh, yes," I replied. "All the Americans are Christians."

"But you never wear any crucifixes."

I opened my jacket and showed him my breast. A crucifix had been tattooed there years ago, when I was a midshipman. The Tagal leaped to his feet with an exclamation of surprise. He instantly crossed himself. His eyes nearly started out of his head. I explained to him that anyone could buy a crucifix and hang it around his neck, but that I had endured pain to have my crucifix pricked in the flesh, and that, as he could see, it must always be with me. There was a marked change in his manner toward me after that.

PENSIONS FOR TEA TASTERS.

Movement on Foot for the Benefit of a Useful Class of Men—A Novel Proposition.

The very novel proposition is being made that the government put superannuated tea buyers on the pension list, says a London correspondent. It is well known that tea is the chief beverage of all classes in the United Kingdom and the fact that the English people get the best tea in the world is largely due to care exercised by the buyers or "tasters," as they are sometimes called. Their health is often ruined by their occupation, as the tea acts as a drug that in the course of a few years ruins their nervous system and they become hopeless mental and physical wrecks. The proposition has been made that the dealers who employ the men pay the pensions, but they are not disposed to undertake the contract and ask the government to step in. This may be done, although there is a general feeling that the people generally should not be taxed for such a purpose.

Some of the more liberal of the tea merchants, however, have engaged to care for their old and faithful buyers. One firm claims to have 1,000 pensioners on its list; another has about 300. These are exceptions to the rule, as the majority of firms turn their tasters off as soon as the days of their usefulness are over. One of the firms interested suggests the formation of a benefit society composed altogether of tea tasters, but this meets with little favor, as the men themselves usually spend all their salaries as they go along and could not pay the dues that would be required. The life of the tea taster at best is not an enviable one and there is a general feeling that something should be done for their maintenance after they have become incapacitated for work by the narcotic they test for the benefit of the public.

Headache may be called a woman's ailment. Some men suffer from it. But almost all women have to endure its pain with each recurring month. This fact points at once to the intimate relation between the health of the delicate womanly organs, and the general health of the whole body. Dr. Pierce's Favorite Prescription banishes headache by banishing its cause. It cures the diseases which irritate the delicate womanly organs, fret the nerves and waste the strength. It increases the vitality and builds up the nervous system. "Favorite Prescription" contains no opium, cocaine or other narcotic.

"I want to praise your medicine," writes Mrs. Sarah J. Burney, of Cresent City, Putnam Co., Fla. "I have been sick for twenty years, and have been almost in bed five years, and now I am able to work all day. I have taken eight bottles of 'Favorite Prescription' and four of 'Golden Medical Discovery' and one vial of 'Pellets.' I praise your medicine to all. I had the headache but it is gone. My throat is well and cough gone, and all my old troubles are better. I tried many other kinds of medicine and four doctors."

To the Voters of Columbia County.

We have held meetings in nearly every district in the county. Never in the history of Columbia county have the meetings been so well attended and so much enthusiasm shown.

There remains but one more thing for the voters to do and that is to go to the polls on the the 6th day of November and cast their ballot.

Every vote should be polled at this election, because it is the fight of the people against the Trusts and the Money Power.

The conditions now point to a great victory for the people, which means the election as President of the United States, that fearless expounder of the rights of the Common People, Hon. William Jennings Bryan.

Go to the polls early and vote for Bryan and Stephenson, Polk, Creasy, Ikeler, Knorr, Sharpless and Shultz.

We will give the largest Democratic Majority ever given in a Presidential year.

Let us place Old Columbia County in the front for majorities in Pennsylvania.

R. G. F. KSHINKA,
J. K. BITTENBENDER, C. A. SMALL.
Secretaries. Chairman.
Bloomsburg, Pa., October 30, 1900.

People the Only Power.

It is easier to lose a reputation than to establish one, and this nation would find it a long and laborious task to regain its proud position among the nations, if, under the stress of temptation, it should repudiate the self-evident truths proclaimed by our heroic ancestors and sacredly treasured during a career unparalleled in the annals of time. When the doctrine that the people are the only source of power is made secure from further attack we can safely proceed to the settlement of the numerous questions which involve the domestic and economic welfare of our citizens.—*From Bryan's Letter of Acceptance.*

The Paramount Issue.

The burning issue of imperialism, growing out of the Spanish war, involves the very existence of the Republic and the destruction of our free institutions. We regard it as the paramount issue of the campaign.—*From the Democratic Platform.*

Vote for R. K. Polk for Congress.

CERTAIN OF VICTORY.

Democratic National Chairman Says His Daily Reports from all Parts of the Country Indicate Easy Majority in the Electoral College.

CHICAGO, Oct. 21.—At this stage of the canvass everything appears to be satisfactory and I feel absolutely certain that Bryan and Stevenson will be elected by a large majority in the electoral college.

The Republicans are depending upon the use of money to debauch the electorate in the same manner that they succeeded in doing four years ago, but it is my opinion that they have not as much money to spend as they had in 1896 and even if they had they would not be able to effect their purpose.

Forty years ago this Nation was confronted with problems tending to destroy the character and form of the Government established by our fathers. If McKinley is re-elected President it will mark the beginning of the end of the Republic. The imperialistic policy of the Republican party means destruction of the Government established by Washington, Jefferson and Madison.

I think the anti-imperialistic movement in the Republican party is much more serious and profound than was the mugwump movement in 1884 that defeated Blaine, or the gold Democratic movement of 1896 that elected McKinley.

In 1884 and 1896 it was objections to candidates on purely domestic issues that could be remedied that were at stake. Now the very existence of the Republic is in peril.

It is impossible for me or any body else to adequately gauge the result of an election in advance. I can say, however, that I receive reports daily from committeemen in every State, county and district in the Union. These men are instructed to report only cold facts and give the enemy invariably the benefit of the doubt. From these reports I feel satisfied that the Democrats will have at least 257 in the electoral college.

I feel absolutely satisfied that Bryan and Stevenson will be elected. J. K. JONES,
Chairman National Democratic Committee.

It is a conceded fact, by men of all parties, that Hon. R. K. Polk has represented this Congressional district in Congress in a more able and business-like manner than it has been represented for years.

Hopeful Signs.

If there is any one thing more than another that should encourage Democrats, it is the bad temper shown by both Mark Hanna and Teddy Roosevelt. For the past ten days they have quit arguing the political issues, and have gone to calling names, abusing everybody and insulting half the crowd that attends their meetings.

Men don't get sour and cross when things are running their way. A little guying don't destroy their temper, nor does an occasional interruption tempt them to abusive language. It is when matters begin to look hopeless and they do not know who to blame for it; when they feel that they are being left and know no other means to save themselves; when the hoped for is vanishing and there is no way to retrieve lost ground, that they loose their tempers and show their desperation by their denunciation of everybody and everything.

Both Hanna and Roosevelt are in this condition now. They see defeat and are mad because they cannot prevent it. This is exactly what their ugly, abusive speeches mean. Their actions are sure signs of Democratic hope.—Bellefonte *Watchman.*

Not Afraid that Bryan's Election Will Injure Business.

President Cassatt, of the Pennsylvania, and the authorities of the Baltimore and Ohio and the Chesapeake and Ohio railroads, have administered a blow in the face of the calamity howlers who are predicting all sorts of business disasters and convulsions of nature in the event of Bryan's election, from which they will be slow to recover. The Pennsylvania railroad is a level-headed institution that is not influenced by threats, predictions or dreams. In conjunction with the great corporations named, it has placed an order with the Steel Trust for 240,000 tons of steel rails, being the largest contract for rails that has ever been given out in this country. Will the calamity howlers please take notice and forever after hold his peace?—*Taggart's Times.*

HON. S. P. McCALMONT

Replies to a Letter From National Committee in no Uncertain Terms—Scathing Arraignment of the Party.

S. P. McCalmont, one of the wealthiest men in the oil regions and the oldest member of the Venango county bar, has replied to a letter received by him from Perry S. Heath, secretary of the Republican National Committee, and signed by M. A. Hanna and various officers and members of that committee. The letter stated that, in compliance with a suggestion promulgated by Jacob Weyand, the Republican Committee had requested the surviving founders of the Republican party to jointly sign "A Patriotic Appeal" to the voters of the United States to support McKinley and Roosevelt.

Mr. McCalmont, who is one of the thirteen surviving founders of the Republican party, which met in Pittsburg on February 22, 1856, and in National Convention in Philadelphia in June of the same year, replied as follows:

MCCALMONT'S REPLY.

"To Republican National Committee:

"Gentlemen: Yours of October 13, with circular inclosed, came duly to hand. I am sorry to say I cannot sign the circular.

"The political acts of Benton and Calhoun are now history, and we, although old and feeble, live in the present. The usurpations and disregard of the Constitution and laws of the nation by William McKinley are present and unblushingly avowed, and were indorsed by the aggregation of politicians who have nominated him at Philadelphia and assure us that he will, if elected, do in the future as he has done in the past.

MCKINLEY'S FAILURE.

"How has that been? He has been over three years in power and no effort has been made by him to control the railroad, telegraph or other corporations. He has crippled the Civil Service law and permitted the Inter-State Commerce Commission to be snubbed and insulted, until it is useless. He has said no word and done no deed looking to the enactment of a graduated income tax, but every measure that would tend to make the rich richer and necessarily the poor poorer has been sustained by him. He has appointed commissioners to whitewash his officers, and when evidence was given that compelled the conviction of one of them, the notes of the evidence were suppressed, and the sentence of the person convicted was commuted by McKinley to suspension from office on full pay of $4,000 per year. Truly, the hypocrisy of McKinley is only equalled by his impudence. I cannot see how the slander of Lincoln in 1864 can be justification for McKinley in doing worse things than Lincoln was accused of.

REPUBLICAN PARTY IS DEAD.

"The Republican party, as organized in 1856, has ceased to exist. Organized to make men free, incorporating in its platform the immortal declaration that all men are endowed with the inalienable rights of life, liberty and the pursuit of happiness; that all governments derive all of their just powers from the consent of the governed, and denouncing slavery, polygamy and the doctrine that might makes right, and the aggregation that has stolen its name is engaged in enslaving millions of people by one of the most cruel, unnecessary, unholy, unjust, illegal and unconstitutional wars ever waged. And it is being carried on with so much drunkenness and debauchery that the Americans are being rapidly destroyed by disease, while the Filipinos are being killed by thousands, all of which William McKinley, as Commander-in-Chief of the Army and Navy, could prevent by a word.

TOO ROTTEN TO REFORM.

"The supporters of McKinley are the party of the rich, of the corporations, trusts and swindlers. It is too rotten to reform and if not checked and destroyed a few years more will see this the basest of nations, the country of a very few rich men and many miserably poor, held in subjection by that most effectual and fatal of all enemies of liberty, a standing army. There is nothing safe as long as such men rule; life is uncertain, liberty is lost and hope expires."

The letter has created a sensation among Republicans, who are amazed at the strong denunciation by Mr. McCalmont.

Don't try to split your ticket and then you will run no risk of losing your vote by a defective ballot. Vote straight for Democracy.

CAN'T FOOL THEM TWICE.

Employees of Tin Trust Remember Campaign of 1896.

For instance, at Maywood, a suburb of Chicago, the Norton Bros. run one of the largest tin mills in the United States if not in the world. They are the pampered children of a robber tariff law. In the early days of the campaign of 1896 they organized their employees into a McKinley marching club. On the Saturday before election the voting employees were lined up and addressed about as follows:

"Men, I do not desire to tell you how to vote, but I wish to say to you that if Bryan is elected next Tuesday you need not come to work on Wednesday. If McKinley is defeated this plant will be shut down."

For weeks previous to that the story was circulated among the employees and with an air that seemed authoritative that if Bryan was elected not only the tin mills, but other mills and factories throughout the country, would have to close down. Only McKinley could insure employment, prosperity and full dinner pails. The employees believed the fairy tale, for most of them were foreign born and from those portions of the European continent where feudalism still lingers. They were also assured that with the election of McKinley more employment would be given and wages advanced. Within three months after the election wages were reduced twice.

The Maywood employees of the tin trust have again been organized into a marching club and made to parade in uniform, but it is safe to assert that not one-third of them will this year vote for the Canton mandarin. They will, for fear of being discharged, march like "dumb driven cattle" and wear khaki uniforms, which, in themselves, are badges of imperialism, but they cannot be fooled a second time to cast a slave's ballot.

Bryan will be the next President of the United States.

Lincoln's Prophecy in 1865.

"I see in the near future a crisis approaching that unnerves me and causes me to tremble for the safety of my country. As a result of the war, corporations have been enthroned, and an era of corruption in high places will follow, and the money power of the country will endeavor to prolong its reign by working upon the prejudices of the people, until all wealth is aggregated in a few hands and the Republic is destroyed. I feel at this moment more anxious for the safety of the country than ever before, even in the midst of war."

F. P. PURSEL.

Mr. Bryan's Enduring Popularity.

Notwithstanding that Mr. Bryan has in the past four years become the most familiar figure upon the political platform in America, he is drawing as large crowds, if not larger ones, on the present tour as he did in 1896, when popular curiosity in his personality was at the highest point. Gov. Rosevelt, comparatively a new figure, is not proving more of a popular attraction than the Democratic candidate. This fact is not mentioned as having any political significance, yet it is not without interest in view of the feeling, even in Democratic quarters before the campaign, that Mr. Bryan had lost some of his drawing power on the stump.—*Springfield Republican (Ind.).*

A vote for Hon. Rufus K. Polk, the Democratic candidate for Congress in this district, means a vote for a man who will guard the interests of his constituency as safely as his own.

The common cattail which grows spontaneously along the marshes, has become of commercial value, it is said. The fluffy, cotton-like material obtained from it is said to be an excellent substitute for hair, wool and other substances used for mattresses and in upholstering, at a lessened cost. The market price is two cents a pound, with a demand far exceeding the supply.

Everybody is interested in the result of this election. Do not stay at home next Tuesday, get out and vote, and see that your neighbors vote.

Italians Murder Coke Company's Paymaster.

ROBBERS GET SWIFT RETRIBUTION.

An Attempt to Rob Safe Containing $4,000 Made Near Alverton, Pa., in Broad Daylight—Exciting Chase For Thieves.

PITTSBURG, Oct. 31.—Four Italian miners attempted to rob Pay Clerk William Hosler of the Southwest Connellsville Coke company while making his trip between this city and Alverton with the pay roll of the Alverton and Tarr works, amounting to $4,000.

Mr. Hosler is dead; his companion, Harry Burgess, messenger of the company, is wounded; two of the Italians are dead, a third fatally wounded, and the fourth is in jail.

Hosler and Burgess left this city at 1 o'clock yesterday afternoon with the safe containing the money to pay off the men at the Alverton and Tarr works. As they reached the summit of the long hill above Morewood, just below which lies Alverton, a large coke town, without a second's warning the four Italians fired a volley from their hiding place and sprang forward, firing as they advanced. Mr. Hosler fell dead at the first volley. Young Burgess, though wounded, was able to return their fire with effect, and one of the number at the horse's head fell dead. A second later he fired his revolver in the very face of another, and as he fell his two remaining companions became terrified and, leaving the dead one, set out with the wounded one over the hill to the south in the direction of the Alice mines.

Burgess managed to drive on into Alverton with the body of Mr. Hosler and the safe, where he gave the alarm.

Mount Pleasant and vicinity, with the clerical force of the coke company, turned out 500 strong, headed by Lieutenant John G. Thompson of Company E, and soon corraled the two, who had concealed themselves in a field on the Durstine farm, a mile or so from this town.

A summons to surrender was answered by a volley, in which one of the posse received a slight wound on the chest. The outlaws from their fortified position made a fierce stand for a few minutes until one of the posse succeeded in getting in their rear. He shot one through the head, killing him instantly. The other surrendered and was brought to the office of Squire Rhodes and remanded to jail.

In the meantime another division of the posse overhauled the third would be robber, who had received a ghastly wound. The ball, entering his mouth and penetrating his head, came out at the back of his neck. He is not expected to recover.

Over Twenty Millions of Gold.

SEATTLE, Wash., Oct. 29.—A total of $20,166,687 worth of gold dust and bullion has been received at the Seattle assay office during the present year. Following are official figures showing the amount of gold dust and bullion received between Jan. 1 and Oct. 4, 1900: Number of deposits, 6,028; ounces of gold and bullion, 1,243,163; from Cape Nome, $2,710,427; other Alaskan points, $462,893; total from Alaska, $3,173,320; from British Columbia (Atlin), $493,116; Yukon district (Klondike), $16,374,488; Washington, Oregon, Idaho and foreign gold coin, $125,762. Since Oct. 24 the office has received an additional $150,000 from Nome and $50,000 from other points. The probabilities are that before the season closes Nome will have furnished $5,000,000.

Varsity Football.

NEW YORK, Oct. 29.—All of the big varsity football elevens, except the University of Pennsylvania, were scored against Saturday. Columbia made Yale hustle to win, 12 to 5, in a sensational game in this city. Harvard had to play hard football to conquer the famous Carlisle Indians by a score of 17 to 5 at Cambridge, the red men thereby breaking the hitherto clean record of the Crimson. Princeton beat Brown, 17 to 5, the Providence eleven making a goal from the field. The University of Pennsylvania played a remarkable game against the Chicago university eleven, the final figures being 41 to 0. Cornell disposed of Dartmouth, 28 to 6, and Annapolis outplayed the strong Lehigh eleven.

Four of a Family Drowned.

PORT CLINTON, O., Oct. 29.—A quadruple drowning occurred near Plaster Bed, on Sandusky bay, eight miles east of here, yesterday afternoon. The drowned were the children of William Stark. Mr. Stark and the children went for a boat ride. On returning to shore the boat became fouled in a fish pound net, and the oarsman could neither forge the boat ahead nor go back. The children became frightened, and, leaning over the side of the small craft, it capsized, resulting in the four deaths. Mr. Stark came here from Toledo three weeks ago. He then had a family of a wife and ten children. Last week Harvey, aged 4, died, and the week before another child, aged 3 months, also died.

Caracas Severely Shaken.

CARACAS, Venezuela, Oct. 30.—At 8:40 a. m. yesterday Caracas was visited by a severe earthquake. Fifteen persons were killed and many others injured. Great damage was done to buildings, including the Pantheon and the churches. The United States legation was badly damaged, but all the occupants escaped unhurt. President Castro, who leaped from a balcony on the second floor of the government house, had one of his legs broken. Mr. William Henry Doveton Haggard, the British minister, had a miraculous escape, the second floor of the British legation having fallen upon him and buried him in the debris.

Ex-Secretary Porter Very Ill.

POMFRET, Conn., Oct. 27.—Mr. John Addison Porter, formerly secretary to President McKinley, lies dangerously ill at his residence in this place, suffering from a disease which must ultimately take him off. For many months before he resigned his position as the confidential secretary of the nation's executive he had been in poor health, and his suffering finally made it imperative that he abandon work.

Famous Gun at Nashville.

NASHVILLE, Oct. 29.—The gun from which the first shot in the Spanish-American war was fired has reached Nashville, which is to be its permanent home. It is a Hotchkiss rapid fire one pounder and comes from the gunboat Nashville which sent a shot over the bow of the Spanish merchant vessel Buena Ventura.

ROOT LIKES CORBIN.

An Official Friendship That Is the Talk of Washington.

Secretary of War and Adjutant General of the Army Spend Much of Their Time in Taking Equestrian Exercise.

Since Elihu Root came to Washington as secretary of war, 14 months ago he has acquired the habit of an inveterate equestrian, although he had probably not ridden on horseback more than 100 miles altogether in the other 54 years of his life. It is seldom that a man of his age develops such enthusiasm for an exacting form of exercise when seductive golf links are on every hand, and its only satisfying explanation involves the great fancy he has evidently taken to Adjt. Gen. Corbin, who has been his preceptor in military as well as in other mysteries of Washington life. No more notable exhibition of intimacy between public men at the national capital is recalled in recent years than that popularly referred to as the "conspicuous hobnobbishness of Root and Corbin," upon whom about equally the president is supposed to depend for the conduct of that department which has practically become the most important and powerful of the government's great establishments.

The offices of the two men, constituting part of a suite, are separated by a single door that swings almost constantly, while the headquarters of all other army officers are scattered along other floors of the big building devoted exclusively to fighting and foreign affairs, those of the general commanding being situated at the extreme distant limit of the structure. This neighborliness is undoubtedly as the secretary would now wish to have it, although it was none of his making, for he found the arrangement when he came just as it had been under half a dozen of his predecessors. The duties of the civilian director of the war office, as it is still officially designated upon its great seal, and of its real military head are closely complementary and interdependent; and, their business hours being sharply synchronous, nothing is more natural than that the period and pursuits of leisure of these two men should be strictly coincident.

TWO OFFICIAL FRIENDS.
(Secretary Root and Gen. Corbin After a Ride to Mount Vernon.)

Every evening between six o'clock and eight, and frequently in the early morning hours, before officialdom is awake, the clattering canter of two fine horses which bear him and his chief of staff is heard in one part of the district and nearby states or another, and on half-holidays or dull days, and sometimes on Sundays, very distant points are reached. Virginia battlefields are visited and the surrounding country beyond the sight of the tall marble shaft of the Washington monument is thoroughly explored.

During these long journeys, often exceeding 40 miles from start to finish, perplexing problems of policy and administration are solved under congenial influences, with utter disregard of the exasperating red tape tangles fastened upon the army through long inaction and congressional apathy. With clear heads from the exhilaration of purer atmosphere than ever penetrates the war department building, the two men are often credited with reaching conclusions of inestimable value to the president—conclusions deeply affecting the domestic and international relations of the republic and the welfare of the people.

The picture reproduced from the New York Tribune was taken at Mount Vernon, the home of Washington, where Secretary Root and Gen. Corbin spent an hour or two to rest their horses during a 46-mile ride one day last month.

White Dove Dotes on Music.

A Newton (Mass.) young lady saw a peculiar feature in a church in a Maine town which she visited last summer. Hearing the cooing of a dove she looked around and saw a white dove perched on the organ and listening to the music with great appreciation. She learned afterward that the dove had been a regular attendant at church for eight or ten years, being attracted by the music, of which it was very fond. It was 12 years old and was the pet of a lady who lived near. After church the dove was taken to the Sunday school class by a boy and seemed to enjoy the proceedings. Unlike many churchgoers the weather made no difference to the dove, but every Sunday, summer and winter, he was at his post on the organ.

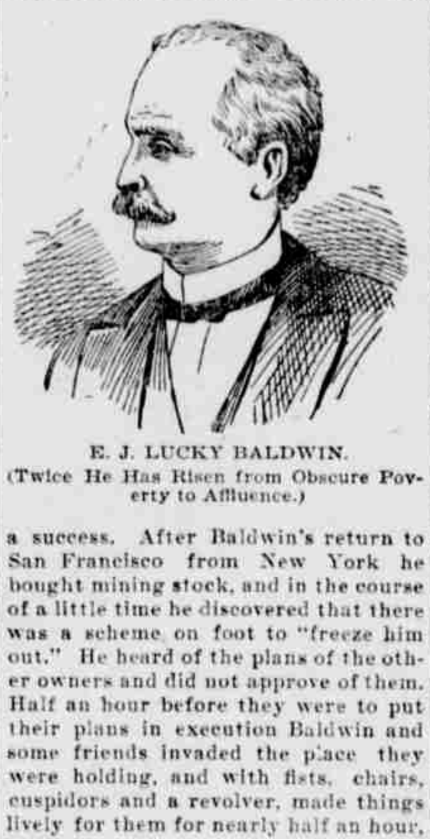
IS RICH ONCE MORE.

Lucky Baldwin Reputed to Be a Millionaire Again.

Through Pluck and Good Business Management This Unique Western Character Gains Fresh Supply of Wealth.

"Lucky" Baldwin is the title by which E. J. Baldwin is known far and near in California. He used to say, however, that it was pluck and not luck that brought him millions. Though to the public, wealth seemed to easily flow into his hands, in reviewing the old man's history it appears that his remark had much of truth in it. Mr. Baldwin was born on a farm near Racine, Wis., and when a boy 18 years old, he took a fine little horse, of which he was very proud, to South Bend, Ind., and there his horse ran a winning race. With his cash capital and some credit he was able to open a grocery store, which prospered, and in time Baldwin bought several wagons and horses and started for California. By judicious trading on the way, he reached San Francisco in 1853 considerably richer than he was when he left home. Figuring that in the booming new town of San Francisco millions of bricks would soon be needed, he bought an interest in a brickyard. He learned the art of making bricks thoroughly, and then started a yard for himself, and out of this business there came to him a fortune. In a short time he bought a livery stable, which proved to be an excellent investment, and in five years Mr. Baldwin decided that he had done well enough to warrant his taking a trip around the world.

When he returned from abroad he brought with him a company of Japanese acrobats, who delighted the people of San Francisco and all the mining towns of the west, and finally their manager played them in New York at the Academy of Music. This tour was a success. After Baldwin's return to San Francisco from New York he bought mining stock, and in the course of a little time he discovered that there was a scheme on foot to "freeze him out." He heard of the plans of the other owners and did not approve of them. Half an hour before they were to put their plans in execution Baldwin and some friends invaded the place they were holding, and with fists, chairs, cuspidors and a revolver, made things lively for them for nearly half an hour, until his attorney arrived with an injunction.



E. J. LUCKY BALDWIN.
(Twice He Has Risen from Obscure Poverty to Affluence.)

After the burning of Baldwin's hotel in 1898 it was supposed that the old man was "flat broke," and, though he owned 50,000 acres of land in lower California, this was mortgaged, as was also the hotel. The hotel was not insured, and its unfortunate owner was obliged to sell his ground for $1,425,000. This went toward paying off mortgages and other debts.

Last Christmas Baldwin surprised his friends by announcing that he was going to Cape Nome, as he knew there was wealth there if a man only knew how to get it. In the ruins of his hotel Baldwin had some time before rigged up a sort of theater, and there had a company of Hawaiian dancers, who made him money. He engaged them to play a season in the mining camp. He gathered other vaudeville attractions also, fitted up a ship with provisions for eight months, put a theater ready to be nailed together in its hold, and sailed away to Cape Nome.

Now the news comes to San Francisco that "Lucky Baldwin" has struck it rich: that, not satisfied with the success of his far north theater, he took up pick and shovel and went out into the frozen wilderness and dug for gold, and gold he found.

Nothing but a superabundance of pluck could have made a man of his age determined enough to begin the battle of a search after wealth all over again. The annals of California bristle with references to the energy and determination of many of the rugged men who have made the state their home for years, but "Lucky Baldwin's" record holds place with the best of them.

SNEEZE AND BLOW.—That is what you must do when you have catarrh in the head. The way to cure this disease is to purify the blood with Hood's Sarsaparilla. WAIT FOR THE DISROBING.

Strange Fact Revealed That Codfish Feast on Lobsters When the Latter Shed Their Shells.

It is probably news to the majority of people to know that the red or rock codfish is a bitter enemy of the lobster that has just crawled out of his shell and is soft and unable to protect himself, says the Lewiston (Me.) Journal. During shedding time these lobsters crawl up under projecting rocks where the seaweed and kelp are thick and where they find protected places in which to go through the process of slipping out of their old shells and taking on a new coat of mail, so to speak. For some days after shedding the lobsters are weak and unable to cope with those fish that wage war upon them. This fact the codfish seem intuitively to know, and they will swarm around these retreats in great numbers and wait for the shedders to crawl out.

An old lobster fisherman said the other morning that many times he had stopped his dory over a large number of these red codfish and watched their operations. He had even dropped his line down and dangled tempting bait within a few feet of them. Unless it happened to fall directly in front of their noses, however, they would seldom take it, as they were after lobster meat. When the thin-shelled lobsters would crawl out from beneath the protecting seaweed the codfish would dart at them and strike them fierce blows with their tails, disabling them completely. They would then fall to and devour the helpless crustaceans. This performance the lobster fisherman said he had witnessed many times. The shedding season is now practically over, and the shells of the lobsters are becoming firm and hard and they are fully able to take care of themselves.

OFF ON A DARING VOYAGE.

Fishing Boat with Crew of Six Has Been Started on a Dash to the North Pole.

There has just sailed from Hamburg what may be set down as among the most daring band of arctic explorers on record. The little vessel is the Matador, a common North sea fishing-boat with a register of but 44 tons. It depends wholly on sail power. The crew consists of six men, the owner and captain being Lieut. Von Bauendahl. His plan after leaving Tromsoe, is to sail as far north as the ice will permit; then he will abandon his little vessel and force his way ahead with sleds. As to his return, that will be guided by circumstances, says a contemporary.

Though the Matador is so small, yet the expedition takes along enough provisions and fuel to last three years. This is packed in water-tight boxes so constructed that they can be used either as rafts or boats. They have runners also, and so can be used as sleds. Capt. Von Bauendahl has spent his entire fortune in preparation for the trip. He is 45 years old and has passed 17 years at sea. He and his crew are enthusiastic and expressed themselves as confident that they would return with the secret of the pole in their possession.

He was member of the Danville Lodge No. 516 F. and A. M. and also Lodge No. 109 I. O. O. F.

A new use has been found for paper. An ingenious inventor is going to weave it into a fabric that shall be a substitute for carpet and supplant the Chinese matting so generally used. The new fabric has a cotton warp and a paper filling, a tough variety of tissue paper being used. The fabric may be dyed and produced in variegated designs similar to any ingrain carpet patterns now in market. A well known Gloucester business man is interested in the enterprise.

At a special session of court on Saturday afternoon at Danville Judge Little passed sentence on Harry R. Landis who had previously been found guilty of selling liquor on Sunday and of maintaining a slot machine during part of the time he was proprietor of Hotel Oliver in that borough. Sentence on the charge of Sunday liquor selling, Landis was sentenced to pay the costs of prosecution, a fine of $100, and to undergo a term of 20 days imprisonment in the County jail.

CHARLES B. JACKSON.

[Continued from 1st Page.]

C. C. Evans, Esq., as follows:

TO THE PRESIDENT AND MEMBERS OF THE BAR OF COLUMBIA COUNTY:

Your committee on resolutions offers its tribute to the memory of Charles B. Jackson, Esq.

On Thursday afternoon, October 25, 1900 Mr. Jackson passed from this life to the life beyond the grave. He was born at Berwick June 7th, 1836 and resided there continuously until the date of his death. He was educated in Berwick public schools and the Dickinson Seminary of Williamsport, Pennsylvania.

During early manhood he became engaged in the mercantile business, which he followed until his admission to the Bar in 1875 from which time he devoted his entire attention to the practice of the law. The influence of constant association with his father, the late M. E. Jackson, who was one of the foremost lawyers of this county enabled him to early grasp the fundamental principles of the law. He was an able and a successful lawyer.

Mr. Jackson was several times a member of the School board and for a number of years Solicitor of the Borough council. As a citizen he was progressive and useful, an affable gentleman, well read in general literature, a good conversationalist, and popular in social circles.

In his death the public has lost a good citizen, the Bar an able lawyer and his family a loving and indulgent husband and father.

CHARLES C. EVANS,
FRED IKELER,
B. FRANK ZARR,

C. W. Miller, Esq., and J. B. Robison, Esq, then made some remarks, in which they paid high tribute to the character of the deceased, as a man and as a lawyer. The resolutions were unanimously adopted, and the meeting then adjourned.

Daring Burglary at Danville P. & R. Station.

The Danville *News* of Monday says: One of the most daring, and well planned burglaries ever committed in this city, took place Saturday morning The Philadelphia and Reading depot office was entered, the operator bound and gagged, the safe blown open, and a sum of money stolen, without the smallest clue as to the identity, or whereabouts of the perpetrators.

At nearly two o'clock a south-bound freight train passed the station, and Annon Keiser the night operator, had just reported it, when some one called to him from the baggage room window that "his friend Thomas" wished to speak to him on the platform. Keiser replied saying "I don't know Thomas and I don't know you." At that moment the window shutter was raised, and Keiser covered by several revolvers. Several of the men, at once crawled through the window and Keiser was securely bound and thrown into Agent Foust's rear office. Before leaving they relieved him of his watch and about $1.50 in money. They also took his tobacco and helped themselves liberally to his lunch. After a number of trials the safe was finally blown open and the money taken. The amount is not known as the officials have refused to make any statement in regard to their loss. It is supposed to have been quite a large sum, possibly $250.

After the robbers had made their escape, Keiser managed to extricate himself and gave the alarm. The officers and Agent Foust were soon on the scene but careful search failed to reveal any clue by which the thieves could be traced.

The boys and girls should read the "Farm Journal." It will help them on the farm. We will send it five years, the remainder of 1900 and all of 1901, 1902, 1903 and 1904, to every one who will subscribe for the COLUMBIAN; both papers at the price of ours only.

The Nazareth, Pa. *Item*, published by Albert O. Sturgis & Co., grew to nearly twice its usual size last week. The extra matter which was in the shape of a supplement, consisted of a description of the resources and industrial advantages of that growing town. Nazareth is situated in the busy center of a cement district, which for richness and importance is second to none, and the *Item* which disseminates the good tidings of the town's prosperous condition, holds an enviable position in the list of Pennsylvania's up-to-date weekly newspapers.

WASHINGTON.

From our Regular Correspondent.

Washington, Oct. 26, 1900.

When old Zach Chandler made Hayes a possibility by claiming his election after the returns showed Tilden's election, he established a precedent that has been slavishly followed by the republican managers of every national campaign since. The republicans have already re-elected McKinley, according to their claims, and the voting ten days hence will be a mere formality. The object of this bluff and bluster is so plain that he who runs may read it. Once get that large portion of the public which takes no personal part in politics other than to vote to accept the idea that McKinley's election is assured, and the way will be paved to work Hanna's plans to secure the election by the corrupt use of money and any other crooked way that presents itself, and those who know little or nothing about the manipulation of political machinery will be more apt to accept the result so obtained because it had been so confidently claimed before election. "He laughs best who laughs last." The democratic managers could shatter some of the "surface indications," which the republicans are pointing out as assuring McKinley's election, but to do so they would have to show where many thousand Bryan votes are which the republican bosses are fondly counting for McKinley, and that they do not deem it good policy to do. It is the "silent vote" which they are depending upon to elect Bryan and Stevenson, and to locate that vote for the republicans would be to make trouble for the voters and to lose much of it. Just let every democrat keep his shoulder to the wheel and remember that November 6, is the day on which the President will be elected.

⁂

The slobbering—the word isn't elegant, but it is exactly expressive in this case—of the men who first kicked the late John Sherman out of the Senate to make room for Hanna and then kicked him out of the Cabinet, where he had only been a figure-head while Day performed the duties of Secretary of State, over the death of Mr. Sherman, which occurred in Washington this week, is about as disgusting an episode as the political world has seen on this side of the Atlantic. It was killing a man and then praising him for his many virtues. Mr. Sherman was not a political paragon. He belonged to the school which follows the motto, "the end justifies the means," and he left a long string of his political friends in the ditches he crossed in his extended political career, but it is certain that he never treated any of them as badly as he was treated by the Hanna-KcKinley crowd. Some think that Mr. Sherman died from a broken heart, but there is no evidence that his heart was the kind that breaks. That he had been a soured and disgusted man ever since his failure to capture the Presidential nomination of his party everybody knows, as he advertised the fact in his book of recollections; but as he always was glacial and ungenial it is not likely that disappointment shortened his life. He was seventy-eight and he had been a hard worker. That is enough to account for a death from natural causes.

⁂

Bank Examiners that can detect fraudulent manipulation of bank books by crooked employes is a needed reform which has been emphasized by the news of a $700,000 defalcation of an employee of the First National Bank of New York City. Secretary Gage was inclined to treat the matter rather lightly, when asked why the bank examiners employed at high salaries by his department had not discovered the big defalcation in their examinations of the bank's books. He said, nonchalently, as though it were a matter of no consequence: "Our examiners cannot be expected to discover an old defalcation when the bank officers themselves have not found or suspected it. The First National Bank can stand it easily, with a surplus of $6,000,000." These few words of Secretary Gage are a strong indictment of the national bank system, as it is now run. If the bank examiners "cannot be expected" to find crookedness until it is pointed out to them by the bank officers, pray, how do they earn their salaries? If the people elect Mr. Bryan President, he will get a Secretary of the Treasury who will expect more of the bank examiners, and will see to it that they are men with knowledge and skill enough to meet his expectations. This particular bank has been such a pet of republican Secretaries of the Treasury, since 1877, when it jumped into prominence as one of the most successful New York banks, through favors given it by the Treasury Department, that the bank examiners may have been afraid to look too closely into its books.

⁂

The government service is in a crippled condition in all the departments and is likely to remain so until after the election, owing to the absence of nearly all of the responsible officials, who are in the field doing political work of some kind, or putting up a bluff that they are, while their salaries are going right along. A man filling a scientific position in the Department of Agriculture thus voiced his disgust: "This is our busy time, and we need our full force. The service is being neglected by the very men, and by their orders, who prate about 'giving the people a business-like administration.'"

REFORMS IN COUNTY LAWS.

Changes Recommended by Commissioners in Convention.

The annual state convention of the County Commissioners of Pennsylvania adjourned at Allentown to meet next year at Bellefonte. Besides listening to many papers, addresses and discussions, the convention adopted resolutions recommending that the fee system for county officials be abolished; that the laws may be so amended that the counties may retain their portion of the state tax without first sending it to the state treasury; that a law be passed making it a felony for a public officer to demand or receive more fees than the law allows; that the law be amended so that for trivial cases returned to court the costs may be put on the magistrate; that the law requiring the counties to pay the costs in discharged cases be repealed; that the school boards be compelled to pay for the registration of school children; that the law in regard to fees for executing affidavits to returns of births or deaths be repealed; that a law be passed making county tax a lien on real estate; that a description of all real estate purchased be filed in the County Commissioners' office; that the fees of stenographers be made part of the costs in all cases, instead of being paid by the counties, and the law making constables fire wardens and appointing fire detectives, be repealed.

The decision of the Luzerne County Commissioners to build the new court house on the site now occupied by the old one does not appear to meet with popular favor. Had the matter been submitted to a vote of the people the present building would be torn down, the square converted into a public park, and the new building erected on River street. This would also add to the beauty of the city. Commissioners are paid to do the will of the people, but they don't always do it.

ON GUARD

The warning cough is the faithful sentinel. It tells of the approach of consumption, which has killed more people than war and pestilence combined. It tells of painful chests, sore lungs, weak throats, bronchitis, and pneumonia. Do not suffer another day. It's useless, for there's a prompt and safe cure. It is

Ayer's Cherry Pectoral

which cures fresh colds and coughs in a single night and masters chronic coughs and bronchitis in a short time. Consumption is surely and certainly prevented, and cured, too, if taken in time.

A 25c. bottle for a fresh cold; 50c. size for older colds; $1 size for chronic coughs and consumption.

"I always keep a bottle of Ayer's Cherry Pectoral on hand. Then every time I get cold I take a little of it and I am better at once."

It's Better

To wear out than rust out, isn't it?

It's better to grasp the nimble sixpence than to wait for the slow dollar, isn't it?

It's better to make prices so slow that the HOME TRADE has no excuse for going elsewhere, isn't it?

Walking Skirts.

Made of heavy cloth, some of double faced. But our best grades are very heavy cloth, without plaid back. Our skirts hang better than most skirts you see, and have a certain style about them that few makers understand how to give. Colors are black, oxford, castor, browns. $4.50 to $12.50.

We have jackets to match our best skirts, and together they make very nice suits. Jackets, $7.50 to $12.50.

Fur Collars.

Entire stock is new, not an old one in the lot. $1.45 to $7.50.

Dress Goods.

All the new shades of grey, blue, brown, green, castor, &c., in fine, all wool Henrietta. 45 ins. wide, $1.00 a yard.

New Plaids, 42 ins. wide. Bright colors, finely finished, and are just as good to wear as the very highest grade. Will stand washing. 50c. a yard.

Broadcloths, in about 15 colors, 15 ins. wide. These are better than you will expect to find at the price. $1.25 and $1.00 a yard.

Homespuns, 54 ins. wide, extra heavy, equal to any dollar goods in the market. This lot, 85c. a yard.

Black Crepon, silky in appearance, and better than we have sold at $1.00. This lot, 69c Yd.

The Mysterious Band.

Among the many new pictures to be presented by the Lyman H. Howe Moving Picture Co. at the Opera House on the evening of November 2, 1900, is a wonderful one by the celebrated French magician, Robert Houdyn. It is entitled the "One-man Band," and is unexcelled as a mysterious subject. The beginning of the picture shows the magician in the foreground and after bowing to the audience he immediately proceeds to cause a number of chairs to mysteriously appear on the stage. He sits down on one of them and as he rises the audience is amazed at the fact that he leaves an exact counterpart of himself sitting in the chair. The same phenomenal result is attained as the magician rapidly seats himself in the various chairs, and every chair is soon occupied by an animated counterpart of the magician himself. Each of of these individuals is seen to have a musical instrument and at a signal from the leader they proceed to render a selection, after which they mysteriously disappear. It is unexplainable. Don't fail to see it. Admission 25 and 35 cents.

Not That Kind of a Woman.

A woman was taken before an Easton magistrate and asked her age. She said twenty-eight. The judge looked up and said: "Madam, you were before me ten years ago, and you gave the same age." Said the woman: "I do not doubt it. I am not a woman that will say one thing to-day and another thing to-morrow."

Accidentally Shot.

While gunning in the woods, near Aristes, Saturday, two boys, Oscar Leiby and John Knittle were badly wounded by the discharge of a gun. Leiby was shot in the neck and breast, while Knittle had a finger severed from his hand and was badly perforated with shot.

A man named James Dennis was killed on the Lehigh Valley Railroad, in White Haven, Friday night. Papers found in his pockets would indicate that he either lived at Nescopeck or had relatives there. So far, however, all efforts to locate or identify him have proven futile. The body is being held in White Haven for further orders.

New Judge for Lycoming.

Governor Stone on Wednesday of last week appointed Addison Candor of Williamsport to fill the vacancy on the Lycoming county bench, caused by the death of Judge John J. Metzger. Mr. Candor was a dark horse and his appointment is the result of the failure of the machine to agree upon a candidate. His commission will expire the first of next January.

DEATH AT A WEDDING.

A Pathetic Tragedy of the War Between the States.

Recalling the historic incidents clustering about South Carolina's executive mansion, Mrs. Thaddeus Horton writes in The Ladies' Home Journal of the shocking tragedy that occurred there toward the close of the war. This was the death of the daughter of Governor Pickens immediately after her marriage to Lieutenant Le Rochelle. "On the afternoon preceding the evening of the marriage the northern army began shelling Columbia, but preparations for the wedding continued.

"Finally the guests were all assembled, and the clergyman was proceeding with the solemn ceremony and had just joined the right hands of the happy pair when suddenly there was an awful crash, and a ball from the enemy's cannon penetrated the mansion and burst in the middle of the marriage chamber, scattering its death dealing missiles in every direction. There were screams and a heartrending groan, mirrors crashed, the house shook, women fainted and walls rocked to and fro.

"When the first confusion was over, it was discovered that in all the crowd only one person was injured, and that was the bride herself. She lay partly on the floor and partly in her lover's arms, crushed and bleeding, pale, but very beautiful, her bridal gown drenched with warm blood and a great cut in her breast.

"Laying her on a lounge, the frantic bridegroom besought her by every term of tenderness and endearment to allow the ceremony to proceed, to which she weakly gave consent, and, lying like a crushed flower no less white than the camellias of her bridal bouquet, her breath coming in short gasps and the blood flowing from this great, angry wound, she murmured 'yes' to the clergyman and received her husband's first kiss. A moment more and all was over.

"She was laid to rest under the magnolias, and the heartbroken bridegroom, reckless with despair, returned to his regiment."

FIGURES AND EYES.

An Indication of Advancing Age That Admits of No Compromise.

"As we grow older," remarked the man who was doing that at the rate of a week every seven days, "we begin to observe that we seem to need more light when we read or that the print of the newspaper that we have been reading with ease for ever so many years is not quite as good as it used to be, or that we can distinguish the letters a little better if we hold them farther away than usual, but we are very slow indeed to observe that the real cause of it is that we are growing old, and we rather resent the suggestion of some kindly friend that we need glasses.

"We resent glasses especially because they are the visible sign of our weakness, and all the world may know by them what we fondly think they have not yet discovered—to wit, that our eyesight is failing. I am that way myself, or was, and I stood the glasses off as long as I could, and really I could get along very well reading almost any type. Of course, I could not make out every letter, but I could get enough to complete the word, and oftentimes I could supply whole words that were indistinct by the sense of what I was reading.

"But it was the figures that got me down at last. Ah, those figures! There is no context there, and when I saw dates or numerals of any kind the blur of the years shut out all their outlines, and to save me I could not tell what was before me. I made mistakes so often in reading aloud to my wife that she would laugh at me, though she never caught me on the letters, notwithstanding many was the time I guessed at about half I was reading. But figures would not stand any fooling like that, and at last I acknowledged that it wasn't the type or the paper or the light or anything of that sort and got myself a pair of glasses. Now I can tell a figure as well as a letter, and I discover they are printed quite as plainly as ever, though I was sure they were blurred before."—New York Sun.

ROSE TO THE OCCASION.

The American Girl, as Usual, Managed to Win the Trick.

A man who is back from a visit to Paris and Germany is telling a story which ought to make the great American eagle flap his wings with pride. It happened at a little railway station in Germany, Grunenwald by name, while the man who tells about it was waiting for a train on a branch line which connects with the main line at that place. Besides himself there were at the station a party of American tourists of the kind you read about in English books and an English family of the kind you read about in American books. The Americans were loud voiced and ungrammatical. They laughed a great deal and they ate peaches, the stones of which they threw at a post to test their marksmanship. They were persons for whom Uncle Sam himself would have felt apologetic, and they displeased the haughty British materfamilias greatly. To the younger members of her family, a gawky boy and a lanky and "leggy" girl of the typical elongated English variety—they were objects of great interest, however, and the girl in particular edged nearer and nearer, to her mother's great disgust. At last she was so near that mamma could endure it no longer.

"Clara!" she called in her loudest voice, "come away at once. You might be mistaken for one of those disgusting Americans!"

A pretty young American looked up and swept Clara from head to foot with a calm glance. Then she went on eating peaches.

"Don't worry, madam," she called out cheerily. "There's no danger of that—with them feet!"—Washington Post.

He Despised Tobacco.

The healthful or reverse action of tobacco has been an absorbing question for decades and one hard to settle. Emerson, cautious as he was, was once drawn into a discussion on the subject and, being a nonuser of the weed, was an ardent advocate of its abolition as a marketable commodity.

"Did you ever think about the logic of stimulants?" he asked. "Nature supplies her own. It is astonishing what she will do if you give her a chance. In how short a time the gentle excitation of a cup of tea is needed! Conversation is an excitant, and the series of intoxications it creates is healthful. But tobacco, tobacco—what rude crowbar is that with which to pry into the delicate tissues of the brain."

A Bold Defense.

"An enlisted man once put the president of a court martial in a difficult position," says a writer in Cassell's Magazine. "The court martial was trying the soldier for some fault or other. When the evidence—and it took an unusually long time—had been given, the president asked the prisoner if he had anything to say in his defense.

"'Well, sir,' said the man, 'I can't see how this 'ere court can sentence me, for Major Jones 'as been reading a paper under the table the 'ole blooming time, and Captain Smith 'as been making me into a karicatoor on the blotting pad, and as for Lieutenant Brown, 'e 'asn't 'ad his commission a year, and don't count anyways!'"

Powers of Endurance.

"When my grandfather was a young man," said the boy with a snub nose, "he could run ten miles without stoppin."

"I heard my grandfather make a prayer 25 minutes long once at a prayer meetin," responded the boy with the dirty face, "an it didn't feaze him."—Chicago Tribune.
